Tips for Making Your New Space a Home

- **Less is More** – Choose a few of your favorite pieces of furniture, ensure each serves a needed function, and lay them out to maximize space, convenience, and comfort for yourself.
- **Bring Special Items to Accessorize Your Space** – Whether family photos or a handmade quilt, choose items to decorate your space that mean something to you. The easiest way to make a new place your home is to decorate with pieces that are special to you.
- **Choose a Color Palette that You Love** – What are your favorite colors? Bring them into the décor and design of your space. We encourage our residents to embrace their favorites and showcase them.
- **Don't Underestimate Great Lighting** – Create a comfortable reading nook with a classic lamp or find a floor lamp that illuminates your space in new ways. Both direct and indirect lighting can transform your room and bring warmth to your home.
- **Liven It Up with Flowers & Plants** – A lush green potted plant or an aromatic bouquet of fresh cut flowers can liven up your room and bring new life to where you live.

Monthly Decorating & Furniture Rental

New residents may choose their **favorite 4 furniture pieces** from our collection for a low monthly rental fee of **\$97 per resident** (note: due to space availability, residents have the option of either a chair OR small loveseat). **This option is complimentary for residents on a waiver or assistance program in need of furnishings.**

Please Note: Final décor items & furniture may vary slightly from pictures in this guide based on available inventory at the time of rental. We do our best to match resident furniture orders as closely as possible.
